Welcome to Föhr

Germany's second largest island situated in the North Sea is worth a journey all year long. Its surface measures about 82 square kilometres – big enough to fascinate with many facets, yet small enough to catch all the sights on a short day trip. With this brochure we will show you the most beautiful views of the island. Let yourself be enchanted by long sandy beaches, the unique natural landscape within the UNESCO World Natural Heritage of the Wadden Sea and the charming character of the Frisian villages. Enjoy your stay!

Did you know...?

Föhr – a place for the future

Side by side with sustainable projects and partners in the local food, accommodation, manufacturing and event industry, Föhr is on its way to a climate-friendly and sustainable future. Find out what drives us on the following pages and at [foehr.de/foehrgreen](https://www.foehr.de/foehrgreen)

FÖHRgreen (speak [gre:n], for the Frisian word for green)

**Today not at the expense of tomorrow,
here not at the expense of elsewhere.**

Protecting the island's environment, strengthening the regional economy and preserving Föhr's vibrant culture. All of this is important to us and to many of Föhr's stakeholders. Through the sustainability initiative *FÖHRgreen*, we make this future-friendly commitment visible and tangible for guests and islanders. The focus is on maintaining a balance between nature and tourism infrastructure, creating a sustainable island for all. So that also future generations can enjoy Föhr as a vacation destination and a place to live. These are our partners so far:

green onerwai

Welcome to the FÖHRgreen discovery tour!

Sustainable engagement stands on many pillars. This tour will take you to some of our *FÖHRgreen* partners: Businesses that are 'green' in their daily activities and are committed to a sustainable future for Föhr. On foot and by bike you will also be green on the way – in Frisian „green onerwai“. When you visit the businesses, you will not only taste and experience sustainable products, but also receive a stamp for this booklet. As soon as you have collected 10 stamps – the order does not matter – you will receive a „green onerwai“ badge at our tourist information offices on presentation of the stamp booklet.

On your wheels, get set, go!
Have fun exploring and collecting.

Villages

The eleven Frisian villages are the touristic highlights of Föhr. Small alleys, traditional thatched houses, lovely gardens – as romantic as a movie set. Forget all about the daily grind in this charming atmosphere – but not to take a lot of pictures!

For culture lovers

Churches

A special magnet for visitors are the three medieval churches from the 12th and 13th centuries situated in the villages of Nieblum, Süderende and Wyk-Boldixum. Inside the churches you will find unique treasures of the Middle Ages like magnificent altarpieces and beautiful carvings. The graveyards with their “narrating” gravestones are worth seeing as well. Guided church and graveyard tours take place regularly and are listed at [foehr.de/veranstaltungskalender](https://www.foehr.de/veranstaltungskalender).

Market

Every Wednesday and Saturday (9am to 12pm) from the mid-May to October you can buy fresh fruits and vegetables, jams, cheese, meat and other delicacies from the island on the small farmers’ market in Wyk. During the summer months, small treats and many different dainties are available every Sunday (11am to 3pm) at the fish market and every Thursday (10am to 12:30pm) at the Oevenum village market. More information [foehr.de/maerkte](https://www.foehr.de/maerkte)

Harbour tour

How does a nautical chart work? What were starboard and port again? On a guided tour of Wyk Harbour, learn exciting things about shipping, the dangers of the weather and crabs that have travelled far, about the curvature of the earth and large lighthouses, buoys and pricks, storms and tides and the harbour in the past and today. By the way, the harbour tour is part of FÖHRgreen experiences.
